

COVID-19 government responses in LDCs – status report of 16 Jan 2021

For how many of the 46 LDCs have measures been recorded?

Timing of recorded policy responses by governments in LDCs

Stringency index

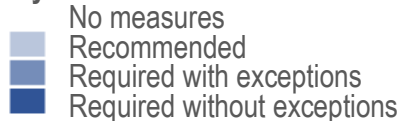

The Stringency index is calculated using nine indicators, combining various measures of government responses, to capture a variation in containment and closure policies only. It records the number and strictness of government policies, not the appropriateness or effectiveness of a country's response.

Legend:

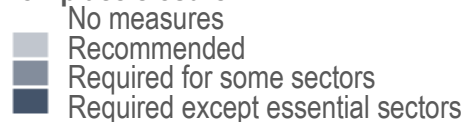

Stringency Index

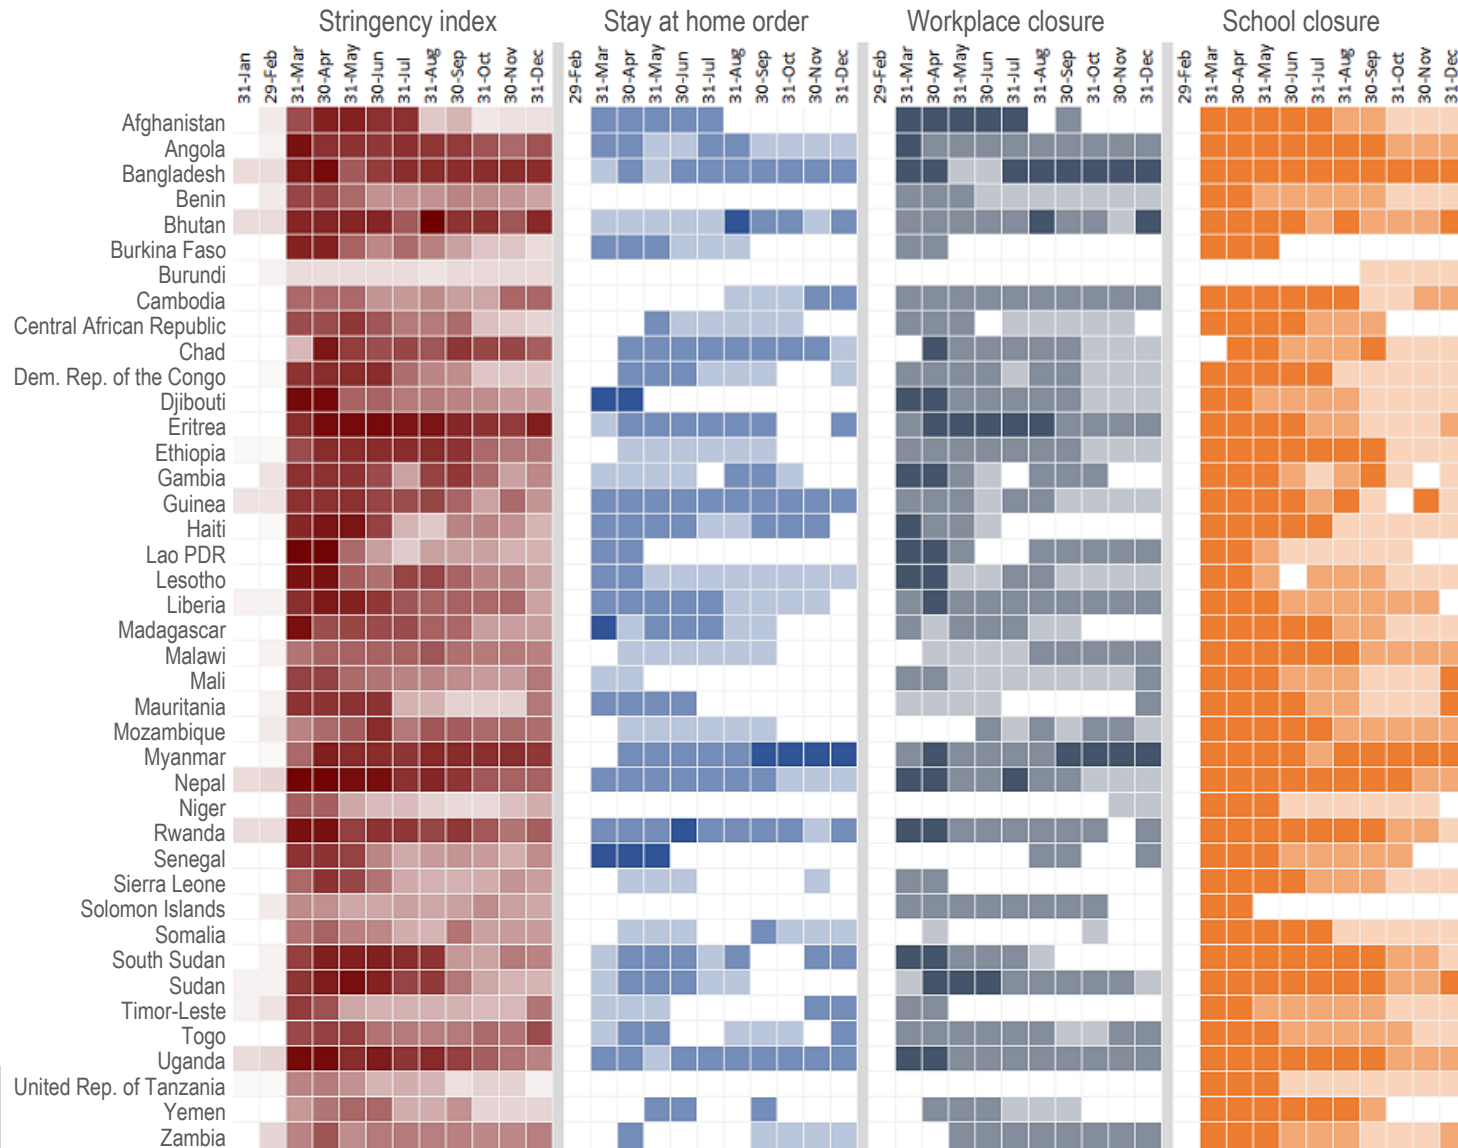

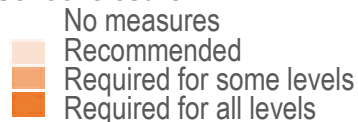

Stay at home order

Workplace closure

School closure
