COVID-19 government responses in LDCs – status report of 30 Sep 2022

For how many of the 46 LDCs have measures been recorded?

Stringency index

The Stringency index is calculated using nine indicators, combining various measures of government responses, to capture a variation in containment and closure policies only. It records the number and strictness of government policies, not the appropriateness or effectiveness of a country's response.

Legend:

Stringency Index

Least stringent (0)

Most stringent (100)

Stay at home order

No measures

Recommended

Required with exceptions

Required without exceptions

Workplace closure

No measures

Recommended

Required for some sectors

Required except essential sectors

School closure

No measures

Recommended

Required for some levels

Required for all levels
