

World Economic Situation and Prospects

United Nations
New York, 2020

Table of contents

Foreword	iii
Explanatory notes	iv
Acknowledgements	v
Sustainable Development Goals	vi
Executive summary	vii

Chapter I

Global economic outlook	1
Prospects for the world economy in 2020 and 2021	1
Global growth	1
Inflation	11
Investment and productivity	15
Labour markets	17
Poverty, inequality and well-being	21
International trade and commodity prices	25
International trade flows	25
Commodity prices	32
Global financial flows and sources of vulnerability	33
Financial market trends	33
Global debt and financial vulnerabilities	36
Risks to the outlook	39
Trade risks	39
Financial risks	42
Geopolitical risks	43
Climate risks	44
Downside scenario—materializing risks	46
Macroeconomic policies	47
Monetary policy	48
Fiscal policy	54
Structural policies	58
Global cooperation	59

Chapter II

Macroeconomic prospects and the 2030 Agenda: economics of energy transition	63
The case for a rapid energy transition	64
Energy gaps, the energy mix and greenhouse gas emissions	64
Emission scenarios and the energy mix	67
Moving beyond stated policies	69
Efficiency gains and behavioural change	70

	<i>Page</i>
Socioeconomic implications of the energy transition	71
Fossil-fuel phase-out, electrification and decentralization	71
Coping with stranded fossil-fuel assets	77
A policy road map for a smooth energy transition	83
Making use of all available policy instruments	83
Pricing carbon: recalibrating relative prices for energy	85
A policy framework for winding down carbon-intensive activities	92
Coordinating global carbon policy	96
 Chapter III	
Regional developments and outlook	101
Developed economies	100
United States	101
Canada	104
Japan	105
Australia and New Zealand	106
Europe	107
Economies in transition	112
The Commonwealth of Independent States and Georgia	113
South-Eastern Europe	116
Developing economies	121
Africa	120
East Asia	130
South Asia	140
Western Asia	146
Latin America and the Caribbean	152

Boxes

	<i>Page</i>
I.1 Exporters in Africa: what role for trade costs?	7
I.2 Gender pay gaps: latest estimates and policy implications.	19
I.3 International tourism	27
I.4 Crypto-assets and implications for the international monetary and financial system	50
I.5 Cyclical uncertainties and the weakening inflation-unemployment relationship.	52
II.1 Climate change challenges for sustainable transport, trade and tourism in small island developing States: the case of Saint Lucia	65
II.2 The impact of the energy transition on global labour markets.	73
II.3 Commodity dependence and climate change	79
II.4 Natural capital accounting	86
II.5 Carbon pricing and the global coal market.	93
II.6 Falling behind? Recent trends in climate change finance for least developed countries	98
III.1 Potential benefits of the energy transition in the Commonwealth of Independent States and Georgia	117
III.2 Financing sustainable development in Africa: domestic revenue mobilization.	126
III.3 What is the cost of achieving the Sustainable Development Goals?	138
III.4 Policy simulations of alternative energy subsidy reforms: strategies towards macroeconomic sustainability in the Arab region	150
III.5 The debt challenge in the Caribbean.	159

Figures

I.1 Growth of world gross product	2
I.2 Global Manufacturing PMI, industrial production and merchandise trade	5
I.3 Contributions to world GDP growth, by region	6
I.1.1 Average entrant first-year survival rate, 2009–2012.	7
I.1.2 Average destination turnover rate, 2009–2012	8
I.4 GDP per capita growth, 2020	9
I.5 GDP per capita trends for selected commodity exporting countries	10
I.6 Inflation volatility in selected developing countries	12
I.7 Monetary policy stances	12
I.8 Fiscal policy stances	13
I.9 Economic policy and trade uncertainty indices.	14
I.10 Business confidence.	14
I.11 Annual investment growth in selected developed economies, decomposed by asset type	14
I.12 Annual investment growth in selected developing economies	16
I.13 Decomposition of labour productivity growth in developed economies	16

	<i>Page</i>
I.14 Labour productivity growth in developing countries	17
I.2.1 Factor-weighted mean gender pay gaps	19
I.2.2 Gender pay gaps across the wage distribution for selected countries	20
I.15 Per capita income growth and decline in inequality required to meet poverty targets	22
I.16 Comparison of well-being indicators and GDP, 2017	24
I.17 Annual growth in merchandise trade volumes, by region	26
I.18 Contribution to global merchandise import volume growth, by region.	27
I.3.1 Share of international tourism (BOP travel and passenger transport) in total exports of goods and services	28
I.3.2 Share of international tourism (BOP travel and passenger transport) in services exports, 2018	28
I.19 Tariffs by sector and by stage	30
I.20 Change in China – United States bilateral trade, 2019Q1–Q3 vs. 2018Q1–Q3	31
I.21 Estimated trade diversion effects of United States tariffs, by economy and regional grouping.	31
I.22 Major commodity prices, 2009–2019	32
I.23 Capital flows of emerging economies	34
I.24 Net official development assistance, by expenditure component	36
I.25 Total outstanding leveraged loans in the United States.	37
I.26 Share of “covenant lite” leveraged loans	38
I.27 Corporate debt-to-GDP ratio in selected economies, 2019 Q1	39
I.28 Selected economies’ exposure to final demand from China, Europe and the United States	40
I.29 Number of WTO dispute cases initiated	41
I.30 Global value of negative-yielding bonds	43
I.31 Regional exposure to weather and climate related disasters, 2010–2019	45
I.32 GDP growth under baseline and mild downside scenario	47
I.33 Total assets of major central banks	49
I.4.1 Bitcoin valuations and daily change, November 2013–November 2019	50
I.5.1 The relationship between inflation and unemployment (Phillips curve)	53
I.34 Real 10-year government bond yield for selected countries	55
I.35 Median general government gross debt.	56
I.36 Share of general government revenue spent on interest payments, 2010 vs. 2019	57
I.37 Share of total external debt	57
I.38 Government revenue as a share of GDP	58
I.39 Geographical distribution of global GDP from 2000 to 2030	60
II.1.1 Shoreline retreat projections for the beaches of Saint Lucia	66
II.1 Per capita CO ₂ emissions from fuel combustion, 2018	67
II.2 Global CO ₂ emissions from fuel consumption under different scenarios	68

	<i>Page</i>
II.3 World primary energy demand under the Sustainable Development Scenario	70
II.2.1 Employment in the overall energy sector, 2016, 2030 and 2050	73
II.2.2 Global renewable energy employment, by technology.	74
II.4 Regional distribution of reserves unburnable under the 2°C scenario	77
II.5 Estimated regional shares of reserves unburnable under the 2°C scenario, by fuel type.	78
II.3.1 Anthropogenic GHG emissions per capita including land use, land-use change and forestry, 2014	80
II.3.2 Climate change vulnerability score (ND-GAIN Country Index), 2017	80
II.3.3 Focus areas of climate finance provided to developing countries through bilateral, regional and other channels, 2016	80
II.6 Share of fuels in merchandise exports and commodity-sourced share of fiscal revenue, 2017.	82
II.7 GDP adjustment paths in the face of stranded assets	83
II.4.1 Carbon footprints in the European Union, by product group, 2017.	87
II.4.2 Indonesian GDP growth trajectories for various scenarios	87
II.4.3 Energy intensity of value added in Costa Rica	88
II.8 Implicit CO ₂ price in Europe	89
II.9 Global subsidies for fossil-fuel consumption	90
II.10 Global electricity costs in 2018.	91
II.5.1 Carbon content of various fuels and impact of \$100 carbon tax on price in the United States	93
II.5.2 Proposed and new coal plants in 2019.	94
II.11 Forest cover by region	98
II.6.1 Multilateral climate change funding for LDCs, cumulative amounts since 1991	99
III.1 Key indicators for the United States	102
III.2 Total support for fossil fuels in Canada by fuel type.	104
III.3 Diffusion indices on employment and production capacity in Japan	105
III.4 Yield on euro area 10-year government bonds.	109
III.5 Total external debt and international reserves of the Russian Federation	114
III.1.1 Total primary energy supply to GDP ratio	117
III.1.2 Welfare cost of premature deaths due to ambient particulate matter as a percentage of GDP	118
III.1.3 Fossil-fuel consumption subsidies as a percentage of GDP, 2018.	119
III.6 Real GDP growth in Africa, by subregion, 2019 and 2020.	121
III.7 Real GDP per capita growth in Africa	122
III.8 General government revenues in selected countries in Africa	125
III.9 Contribution to GDP growth in East Asia, by expenditure component	131
III.10 Global semiconductor billings versus export growth in East Asia.	132
III.11 Global value chain participation of selected economies	137

	<i>Page</i>
III.3.1 Total annual investment gap for achieving the Sustainable Development Goals in the Asia-Pacific region	139
III.12 GDP growth in South Asia.	141
III.13 Share of largest sector in total exports, 2017.	143
III.14 Share of youth not in employment, education or training (youth NEET rate)	145
III.15 GDP growth prospects for GCC countries	148
III.4.1 Results of the CGE modelling assessment.	150
III.16 Composition of GDP growth in Latin America and the Caribbean	154
III.17 Fiscal and growth performance in Latin America and the Caribbean.	158
III.5.1 Public debt and fiscal balance figures for the Caribbean region	159

Tables

I.1 Growth of world output and gross domestic product	3
I.2 Growth of world output and gross domestic product per capita	4
II.1 Growth of world primary energy demand by fuel	69
II.2 Energy transition: channels of socioeconomic impact	72

Statistical annex	
Country classifications	163
A. Developed economies	165
B. Economies in transition	165
C. Developing economies by region.	166
D. Fuel-exporting countries.	167
E. Economies by per capita GNI in June 2019	168
F. Least developed countries (as of December 2018)	169
G. Heavily indebted poor countries (as of December 2018)	169
H. Small island developing States.	170
I. Landlocked developing countries	170
J. International Organization for Standardization of Country Codes.	171
 Annex tables	 173
A.1 Developed economies: rates of growth of real GDP	175
A.2 Economies in transition: rates of growth of real GDP.	176
A.3 Developing economies: rates of growth of real GDP.	177
A.4 Growth of world output and gross domestic product by SDG regions	181
A.5 Developed economies: consumer price inflation	182
A.6 Economies in transition: consumer price inflation	183
A.7 Developing economies: consumer price inflation	184
A.8 Developed economies: unemployment rates	188
A.9 Economies in transition and developing economies: unemployment rates .	189
A.10 Selected economies: real effective exchange rates, broad measurement	191
A.11 Free market commodity price indices	193
A.12 World oil supply and demand	194
A.13 World trade: changes in value and volume of exports and imports, by major country group	195
A.14 Balance of payments on current accounts, by country or country group, summary table	197
A.15 Net ODA from major sources, by type	198
A.16 Total net ODA flows from OECD Development Assistance Committee countries, by type	199
A.17 Commitments and net flows of financial resources, by selected multilateral institutions	200
